The Future is Market Position – Be sure of your Competitive Advantages with Process Innovations
Dear RAMSIS User,

One of the most important success factors in vehicle construction today is cabin quality. This is also the verdict published in the 2008 J.D. Power Consumer Satisfaction Report. In line with the company slogan “Focusing on the human being”, Human Solutions ensures competitive advantages by creating new developments and innovations for RAMSIS - for ergonomics and the vehicles of tomorrow. “The success recipe for gaining a top position in the brand and model rankings is the consistent orientation of products and services on the customer and his expectations”, says Martin Volk, project leader of the J.D. Power Satisfaction Survey.

To provide you, a RAMSIS user, with the optimal preparation for meeting the challenges of the future and fulfilling the expectations of your customers, we hereby cordially invite you to participate in the RAMSIS USER CONFERENCE 2009, which will take place in the Human Solutions company offices on the 21st and 22nd of September 2009.

Once again, we will be offering you highly interesting lectures from the automotive industry and - for the second time – the Ergonomics Award, for the best scientific work. You can obtain more information on this by contacting alexandra.lang@human-solutions.com.

As always, our workshops round off the complete program on the afternoon of the second day of the Conference, providing you with the opportunity to test the functionality of the tools yourself and use it in actual practice. Our application engineers will be on hand to help and advise you should you need them.

At the end of the first day of the Conference, we’ll be inviting you to a supporting program for all Conference participants.

A detailed program with all the topics and speakers will be available from the 15th of August 2009 at www.human-solutions.com.

We’ll be delighted to see you at the RAMSIS USER CONFERENCE in Kaiserslautern!

Workshops

» Focusing on the human being in the vehicle – Vehicle design, centered on the user

» The human being sees it all - Ensuring optimal visibility conditions in the vehicle

» The normalized human being – Ergonomic and norm-conforming vehicle design from one source
Registration

To register for the RAMSIS USER CONFERENCE, please fill out the attached fax form and send it to the following number before 30th July 2009 at the very latest. Of course you can also register online at www.human-solutions.com. Whether you register online or by fax, you can pay either by credit card or by bank draft. You’ll find the necessary information on the attached registration fax form.

Participation fee

The fee for the entire two-day event, including the accompanying program, is 390 Euros per person including VAT. If another employee from the same company wishes to take part, he or she will receive a 10% discount. The participation fee covers the following:

- Participation in the RAMSIS USER CONFERENCE 2009 2-day event, including workshops, lunch, and drinks
- Congress documentation
- Supporting program
